

Edgehaven Principal was a Guest Speaker at Preqin's inaugural Australian event: The Future of Alternatives

3rd Nov 2022

Our inaugural event in Australia — on the Future of Alternatives — took place in Sydney last week. Our thanks to all attendees and panelists, for their time and dynamic questions and discussion on what's to come for our industry.

The event started with the Preqin Chairman (Sir Bradley Fried) and its CEO (Christoph Knaack) discussing their research report The Future of Alternatives.

Bev Durston from Edgehaven then joined other experienced industry panellists in discussing the research and their industry expert views about the current state of the markets. These were Benjamin Hart from Adam Street Partners, Carmel Hourigan from Charter Hall, Ray Neill from Brookfield Asset Management and William Stephens from Gresham Partners

Panel topics included:

- Factors that will determinate the future of alternatives
- Impact of the current environment on performance, fundraising, deals and the exit environment
- The growth areas in the industry
